### A TEST EXPERIMENT.

Peculiar Power Possessed by a New Medicine.

Medicine.

Of new discoveries there is no end, but one of the most recent, most remarkable and one which will prove invaluable to thousands of people, is a discovery which it is believed will take the place of all other remedies for the cure of those common and obstituate diseases, dyspepsia and stomach troubles. This discovery is not a loadly advertised, secret patent medicine, but is a scientific combination of wholesome, perfectly harmless vegetable essences, fruit salts, pure pepsin and hismuth.

but is a scientific combination of wholesome, perfectly harmless vegetable essences, fruit salts, pure pepsin and bismuth.

These remedies are combined in lozenge
form, pleasant to take, and will preserve
their good qualities indefinitely, whereas
all liquid medicines rapidly lose whatever
good qualities they may have had as soon
as uncorked and exposed to the air.

This preparation is called Stuart's Dyspepsia Tablets, and it is claimed that one
of these Tablets or lozenges will digest
from 30 to 3,000 times its own weight of
meat, eggs and other wholesome food. And
this claim has been proven by actual experimens in the following manner: A hardboiled egg cut into small pleces was placed
in a bottle containing warm water heated
to ninety-eight d-grees (or blood heat);
one of these Tablets was then placed in
the bottle and the proper temperature
maintained for three hours and a half, atthe end of which time the egg was as
completely digested as it would have been
in a healthy stomach. This experiment
was undertaken to demonstrate that what
it would do in the bottle it would also do
in the stomach, hence its unquestionable
value in the cure of dyspepsia and weak
digestion. Very few people are free from
some form of indigestion, but scarcely two
will have the same symptoms. Some will
suffer most from distress after eating,
bloating from gas in the stomach and
bowels; others have acid dyspepsia or
heartburn; others palpitation or headaches, sleeplesmess, pains in chest and
under shoulder blades, extreme nervousness, as in nervous dyspepsia, but they all
have the same cause, fallure to properly
digest what is caten. The stomach must
have rest and assistance, and Stuart's
Dyspepsia Tablets give it both, by digesting the food for it, and in a short time it
is restored to itn normal action and vigor.
At the same time the Tablets are so harmless that a child can take them with benefit. This new preparation has already
made many astonishing cures, as, for instance, the following:

Princess Radziwill Makes Claim Under Alleged Contract With Diamond Magnate.

### TRIAL MAY BE SENSATIONAL.

Friends Assert That She Has Documents Involving Men in High Life-Served Term for Forgery Recently.

London, Nov. 3.-Princess Radziwill to day issued a writ demanding \$7,000,000 from Lord Rosebery, Earl Grey and Messrs. Alfred Belt. Doctor Jameson, L. L. Mitchell and B. A. Hawksley, trustees of the estate of the late Cecil Rhodes. under an agreement alleged to have been made on or before June 20, 1899, between

herself and Mr. Rhodes. This is a sequel to arrest and imprisonment of the Princess at Cape Town in 1902 on the charge of foreing Rhodes's signature to bills for several thousands of pounds.

The case, which doubtless will prove sensational, is expected to lead to many xposures

The friends of Princess Radziwill say she possesses documents of high political importance, which were suppressed during the trial at Cape Town, and which will be produced in court, dealing with South African matters, particularly with the Jameson raid and the alleged complicity of former Colonial Secretary Chamberlain therein.

The Princess's lawyers refuse to furnish particulars of her claim, but they assert that the document on which they have their claim is a regular contract, in

writing. Princess Radziwill was sentenced to two ears' imprisonment by the Supreme Court of Cape Colony, April 30, 1902, for forgery in connection with notes purporting to have been indorsed by the late Cecil Rhodes. She was liberated from prison August 11, 1965.

#### FEW WITHDRAWALS OF BONDS Rush of Banks for Retirement of

Circulation Ceases. REPUBLIC SPECIAL.

Washington, Nov. 3.-In striking contrast to the conditions existing in September and early in October, the rush of banks to file applications for retirement of circulation has ceased. Scarcely any applications for the withdrawal of bonds deposited to secure circulation are now oming into the Treasury. The reduced price of bonds, especially of

The reduced price of bonds, especially of the 2 per cent consols, accounts for the fact that the banks are no longer anxious to get possession of those on deposit with the Government.

In September the \$2,000,000 limits for September, October and November were reached and applications were put on file for December. How slow the rate of applications has been since then is seen in the fact that the \$1,000,000 for December has not yet been reached, there being still a margin of about \$159,000.
